

BUSSINES ASSURANCE FOR THE DIGITAL LANDSCAPE

The winds of change are passing by the telecom Industry.
Some set their sails and navigate faster than ever before. Others are doomed to be capsized.

WHICH BOAT WOULD YOU LIKE TO BE ON?

In a rapidly changing digital world, success is reserved for the adaptable, prepared and the daring. How does a digital service provider,

- Successfully transform to new technology?
- Balance CapEx, OpEx, and profits?
- Manage a plethora of partners?

With 25 years of domain expertise, Subex Revenue Assurance is built around big data and focused analytics capabilities to addresses the new, complex and critical challenges faced by RA teams globally.

5G Assurance

5G brings in a plethora of new opportunities to telcos. At the same time, the telco network is expected to face some unforeseen risks. 5G Assurance helps operators to mitigate risks across network and capacity planning, service launch, onboarding, usage and event management, and service management.

5G Assurance empowers you to:

- Optimized Capacity planning
- Automate service provisioning, usage generation, and charging and billing
- Monitor product performance, revenue, and margins
- Near real-time usage reconciliation

Partnership Commission and Invoice Assurance

Partnership is the key to succeed in the digital ecosystem. Partnership commission and invoice assurance helps operators to have a complete end to end view of partner data and invoices across all the services to ensure all partnerships are profitable.

Have a bird's eye view of Partner Commission and Invoices to:

- Predict dispute propensity of partners
- Validate partner invoices
- Mitigate dealer frauds to extract commission and incentives
- Forecast future revenue opportunity
- Profile and track risky partners easily

Margin Assurance

Profitability makes or breaks a business. How profitable are your offerings? Margin Assurance helps telcos gain fine-grain insights into their profitability.

Track margins to:

- Maintain a strong bottom-line
- Avoid non-profitable startups, partnerships, and products
- Prevent revenue loss due to negative margins

Collection and Payable Assurance

Collections directly impacts revenue generation. Collections and payable assurance help operators get a near real-time holistic view of history, credit score, risk categorization and status of customers.

Monitor your Collections and Payables to:

- Predict bad debt and Bill shocks
- Identify unknown scenarios in collections
- Track internal fraud
- Monitor high-risk customers with actionable insights
- Simplify the tracking of collections across multiple interfaces throughout the ecosystem

Order Management Assurance

Order management as a process involves multiple partners and complexities, making it easy to lose visibility and control of the order. Order Management Assurance helps operators get visibility of all provisioning status from POS to allocation at billing and also enables the error and resolution tracking system.

Track your Orders closely to:

- Improve customer onboarding experience
- Predict risk on received orders
- Reduce cost and revenue impacts

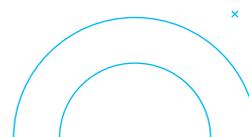

Mobile Money Assurance

Mobile Money market is expected to reach USD 443.96 billion by 2025. With growth come unforeseen risks, Mobile Money Assurance helps operators to identify anomalies and mitigate risks to avoid revenue losses.

Secure your Mobile Money platform to:

- Prevent money laundering and financial terrorism
- Risk scoring of customers before onboarding
- Enhance mobile money usage among low and mid-level users
